

PARENTS SUPPORT GROUP NEW JERSEY, INC.

A program exclusively for parents meeting with parents struggling in the dynamics of their children's addictions

PARENTS SUPPORT GROUP NEW JERSEY, INC. helps mothers and fathers to understand and cope with the disease of addiction.

- As a nonprofit foundation we sponsor self-help groups based on the Twelve Steps, however we are not affiliated with any other twelve step program.
- We believe that addiction is an illness and that changed attitudes and responses by the parents can greatly help a child's recovery.
- Our mothers and fathers refer to their sons and daughters as children, even though they range in age from 12 to 50.
- Each support group has a team of two facilitators who are trained to ensure that meetings deal with appropriate subject matter and that each individual has a chance to participate.
- Absolute confidentiality is practiced by the staff and required of all parents.
- We find that enabling, manipulating, letting go, and learning to detach with love are difficult concepts for parents to grasp. We know they need support in learning and practicing this program.
- A counselor is on retainer by the foundation to meet any special needs a parent may have. There are no fees for this service.
- There are no financial charges to parents attending our meetings.
- We are not associated with any organization, institution, political party, sect or denomination. We have no position on any cause nor do we engage in any controversy.
